MORNING SESSION: 10 AM–12 NOON

Psychopharmacology: Recent Developments, Contextual Considerations, and Putative Mechanisms of Action

The morning session will briefly introduce participants to the history of and recent developments in the pediatric psychopharmacology arena. A wide range of ethical, legal, financial, marketing, publication, cultural, and professional issues and controversies will be highlighted. Participants will then be introduced to some basic concepts, terminology, and putative mechanisms of action, which will set the stage for a review of safety considerations within a developmental context.

AFTERNOON SESSION 2:00–3:45 PM

Psychopharmacology: Comparative Safety and Efficacy: Drug Versus Psychosocial Treatment

The afternoon session will present a balanced review of the literature to compare and contrast the short- and long-term safety and efficacy of pediatric drug and psychosocial treatments. Participants will learn about recent FDA warnings and advisories and common side effects of various classes of medication. The empirical support that exists for both drug and psychosocial treatment for a variety of disorders will also be reviewed. A range of references and resources will be provided.
